Introduction

In the past 1.5 year I was learning frontend development as I have decided to change my career completely. So far I have learned and have experience in HTML, CSS, JavaScript, React.js, Redux, Node.js, MongoDb, even a little with React Native. Now I am practicing Typescript.

I am looking for a team which could help me grow as a professional. I am learning fast and eager to get real experience in the tech company. I am ready to dive deep in the work, to be a team member, to grow as a professional and as a person. I believe I can be a valuable member of a company and a team.

I am a mentee at Women Go Tech, Frontend track.

EXPECTED JOB LEVEL	Junior Specialist

Work experience

2015-11 – 2021-03	**Chief Specialist**
	Financial Crime Investigation Service

WORK DESCRIPTION

- My responsibility was to research economic and financial activities according to the accounting documents of companies and present a conclusion. Maternity leave since 2017-05
- What I bring: Proven ability to learn fast as I started working with no experience in accounting. Strong ownership, because sometimes needed to defend my conclusions of research as expert in the court.

DEPARTMENTS

- Finance, accounting, audit
- Public sector

| 2010-10 – 2015-11 | **Tax advisors team leader, tax advisor** |
| | State Tax Inspectorate |

WORK DESCRIPTION

- As a tax advisor I was consulting taxpayers in a call center by answering inbound calls or written inquiries. As team lead, I was responsible for the quality of the team inbound calls, training of new employees, assessment of the quality of the consultations, collection of new and relevant legal information, analysis of legal acts, and provision of comments.
- What I bring: Proven ability to learn fast, communicate with customers and team, share my knowledge with team as I have started as junior tax advisor, after a few years I was put in charge of a group of 10 people. Ability to master new technologies because I needed to learn new features like EDS, Mano VMI and advise taxpayers and team members how to use them and many others internal systems to evaluate sensitive information about paid taxes and debts.

DEPARTMENTS

- Public sector
